

Conscious Data Centers Partners with Maintec to Support Mainframes in their Data Centers

Conscious Data Centers Partners with Maintec to Support Mainframes in their Data Centers Utilizing 30 Plus Years of Maintec's Expertise in Mainframe Managed Services.

Rancho Cordova, Calif. – July 17, 2022 – Conscious Data Centers (“Conscious”), a minority-owned and certified, environmentally friendly data center provider offering co-location and managed services with mainframe focus, has selected Maintec, a managed outsourcing service provider for mainframes, as its partner for providing managed services for mainframe customers.

Conscious Data Centers ownership includes Conscious Capital Data Center, (“CCDC”), a mainframe purpose built 75,000 sq. ft. data center with 50,000 sq. ft. of raised floor in Rancho Cordova, CA. Acquired from HP in 2019 and refreshed, upgraded, and reopened in 2022. CCDC currently has over 200 x86 managed service clients covered through a dedicated 24x7 in-house Network Operations Center, that is SOC Type 1, and Type 2 Certified, and HIPPA Compliant.

“Maintec shares our vision for servicing the mainframe segment with a problem-solving approach for moving, maintaining and upgrading mainframes. Conscious focuses on customers frequently in mainframe transition. Maintec thus fits synergistically with our strategy,” said Ken Choi, President “Conscious brings an industry veteran and seasoned team to the table, that allow us to be confident in mission-critical hosting and transition, making them an ideal Maintec partner,” said Maintec CEO, Sonny Gupta.

###

About Conscious Data Centers

Conscious Data Centers, LLC is a minority owned data center provider offering colocation and managed services. Conscious’ features rival those of the industry’s leading players, in line with the requirements of Tier 3 data centers offering colocation including, redundant site infrastructure, multiple independent bandwidth paths, redundant power feeds, N+1 power plant configuration, 24x7x365 on-site security, monitoring, and customer support, and service level guarantees at or exceeding 99.999%. Conscious’ Rancho Cordova data center was built originally by Electronic Data Systems (EDS) for the purpose of hosting mainframes. To learn more please visit us at www.consciousdatacenters.com.

About Maintec

Maintec Technologies has been providing mainframe outsourcing, data center management and IT staffing for over 20 years. With a wide range of data center management and data center outsourcing services, Maintec Technologies provides a cost-effective and efficient way to develop, implement and run business-critical applications 24x7, without upfront capital investment. Maintec Technologies provides onshore data center outsourcing, mainframe colocation, and data center management services for enterprises that rely on IBM Mainframes (System z, Linux for z) and IBM Power Systems (IBM i, AIX, Linux).
